**Re: Storm Water Inspection State Route 161 Improvements in Dublin, Ohio  
Permit Number: 4GC03121\*AG**

Dear Mr. Richards:

This letter is written in follow up to a construction storm water inspection I conducted of State Route 161 Improvements in Dublin, Ohio on April 21, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, I noted the following:

**Sediment and Erosion Controls:**

- During the inspection, I noted the majority of the site was void of any effective sediment and erosion controls. Corrective measures are expected within three days from receipt of this letter to implement controls to minimize off-site sedimentation.

**Post Construction Requirements:**

- The General Storm Water Permit requires specific post construction water quality treatment for all sites. Guidance regarding the post construction requirements is found at: <http://www.epa.state.oh.us/dsw/storm/CGPPCQA.aspx>. Please submit to my attention (email preferred at [harry.kallipolitis@epa.state.oh.us](mailto:harry.kallipolitis@epa.state.oh.us)) which practice will be installed at this site to ensure compliance with the General Permit. Please include all design criteria and calculations in your submission.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3844 or email at [harry.kallipolitis@epa.state.oh.us](mailto:harry.kallipolitis@epa.state.oh.us). In addition, please provide a written response to this letter within seven days of receipt.

Sincerely,

Harry Kallipolitis  
Storm Water Coordinator  
Division of Surface Water
