Dear Mr. &amp; Mrs. Meade:

Enclosed is the Reconnaissance Inspection Report for the B & B Motel wastewater treatment plant (WWTP). This inspection was conducted on September 27, 2007, by Ohio EPA personnel in an effort to correlate the Darby Creek watershed permitted dischargers effluent quality with the water quality in the Darby Creek basin.

The purpose of this inspection was to evaluate the condition and operating capabilities of the WWTP.

At the time of the inspection, the facility was found to be acceptable, however, you are in violation of your NPDES permit compliance schedule. On or before October 11, 2007, submit to this office a permit-to-install application for phosphorus removal.

Please review the attached and if you have any questions, comments, or concerns, please call me at (614) 728-3847.

Sincerely,

Sheree Gossett-Johnson
