**Re: Wyandot Golf Course (4PX00035)  
Knox County**

Dear Mr. Arter:

This correspondence serves as Notice of Violation for non-compliance with the terms and conditions of the effective NPDES permit issued to the Wyandot Golf Course. The NPDES permit issued to the Wyandot Golf Course sets forth monitoring requirements and effluent limits for discharges from the wastewater treatment plant serving the golf course clubhouse. Our records indicate that no operating report data has been submitted since May 2006.

Please be advised that the NPDES discharge permit also requires that the plant be operated by a state certified operator holding a Class A or greater license. It is my understanding that the operation of this facility is not currently performed by a state certified operator.

Please submit documentation to this office, in writing within 14 days of receipt of this letter, that you have retained the services of a licensed operator. Additionally, you shall comply with the quarterly monitoring and data submittal requirements in your effective NPDES permit. Please be aware that the next month in which effluent monitoring and laboratory analysis is required is March 2010.

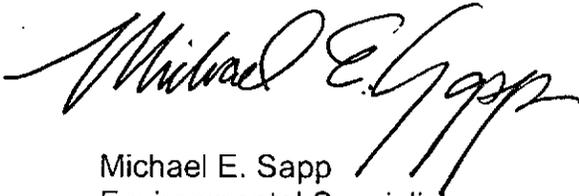

Failure to retain the services of a state certified operator within the next 14 days and/or non-submittal of operating report data beginning in the month of February 2010 shall result in the initiation of escalated enforcement action.

Ted Strickland, Governor  
Lee Fisher, Lieutenant Governor  
Chris Korleski, Director
