Mr. Gary Ruble
Gary Ruble LLC
35479 SR 78
Lewisville, Ohio 43754

Dear Mr. Ruble:

On March 5, 2012, Ohio EPA received a complaint alleging that used oil has been improperly managed on your property on SR 78. On March 7, 2012, Scott Bergreen and I performed a complaint investigation of your property to determine the validity of the complaint.

Based on the observations made during the investigation, a Notice of Violation (NOV) letter was issued to you on March 12, 2012. On March 28, 2012, I received your response which stated that the issues in the NOV had been addressed. Based on this information and the photographs you provided, your facility has returned to compliance with the following regulations:

Hazardous waste determination, OAC rule 3745-52-11; and
Used oil storage requirements for generators, OAC Rule 3745-279-22(D);

All hazardous waste violations cited from the March 7, 2012 complaint investigation have now been abated.

Additional information on the hazardous waste rules, pollution prevention assessments and other useful information are available on Ohio EPA's website at www.epa.state.oh.us. If you have any questions regarding waste management or pollution prevention activities, please call me at (740) 380-5278.

Sincerely,

Richard Stewart
District Representative
Division of Hazardous Waste Management

RS/sb
