**Re: Storm Water Inspection at Honda R&D Americas Inc
Permit #4GCD00024*AG**

Dear Mr. Stutz:

This letter is written in follow-up to a construction storm water inspection by Katie Anderson and Rachelle Howe, of the Ohio EPA, at Honda R&D Americas, Inc located at 21001 State Route 739 in Union County on July 7, 2009. The purpose of the inspection was to ensure continued compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, we noted the following:

Sediment and Erosion Controls:

- There appear to be no issues with storm water controls at this time.
- It was evident that seeding has taken place and the seeded areas have been covered with straw. Please continue to ensure appropriate protection from erosion.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844. Follow-up inspections will be conducted to ensure the conditions of the General Permit are continuing to be met.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
