**Re: Construction Storm Water Inspection at Franklin County Sanitary Landfill
Franklin County
Permit Number 4GC03316*AG**

Dear Mr. Perry

This letter is written in follow-up to our joint construction storm water inspection conducted at Franklin County Sanitary Landfill located at 3851 London Groveport Road, Grove City, Ohio on March 9, 2011. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. The following was noted:

- During the inspection we evaluated the site for storm water collection in management during a significant rain event. During the inspection we found a small breach near the entrance of the site which was corrected prior to my departure. There was a second breach of the storm water collection system on the northwest corner of the project which you indicated would be corrected by day's end.
- Please continue to monitor the collection system and pond to ensure compliance with your General Permit. The permit requires inspections are conducted a minimum of every seven days or within 24 hours of a rain event equal to or greater than 0.5 inches. A log of all inspection must be maintained onsite available for review.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3844 or email at harry.kallipolitis@epa.state.oh.us.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
