**Re: Construction Storm Water Inspection at Etna Parkway / Licking County
Permit Number: 4GC03129*AG**

Dear Mr. Brems:

This letter is written regarding the storm water inspection I conducted at **Etna Parkway** located between US 40 and Refugee Road in Pataskala, Ohio on December 6 and 27, 2010. The Agency understands that these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. Based on the site inspection and the General Storm Water Permit, the following items were noted;

Sediment and Erosion Controls:

- **December 6, 2010 Inspection:** No changes from my December 1, 2010 inspection
- **December 27, 2010 Inspection:** The perimeter silt fence has been repaired and straw mulch has been placed on this project per the requirements of my December 1, 2010 inspection. All controls must be monitored via your self-inspection reports. In the event straw mulch blows off the project, re-application is expected.

If you have any questions regarding this letter or the inspection, please do not hesitate to call me at our Central District Office at (614) 728-3844 or email at harry.kallipolitis@epa.state.oh.us. In addition please provide a written response within five days from receipt of this letter.

Sincerely

Harry Kallipolitis
