**Re: Construction Storm Water Inspection at French Run Elementary
Permit Number 4GC03255*AG**

Dear Mr. Strussion,

This letter is written in follow-up to a construction storm water inspection I conducted at French Run Elementary School on December 7, 2010. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, our staff noted the following issues associated with construction activities at this site:

Sediment and Erosion Control:

- The perimeter silt fence was repaired per my last inspection report request.
- The northern field was protected from erosion per my last inspection report request.

Post Construction Requirements:

- The post construction information was received and is currently subject to review.

If you have any questions regarding this letter or the inspection, please do not hesitate to call me at our Central District Office at (614) 728-3844 or email at harry.kallipolitis@epa.state.oh.us.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
