**Re: Circleville Transfer Station / Pickaway County
Industrial Storm Water Permit 4GR00462*DG**

Dear Mr. Congrove:

This letter is written in regard to the storm water inspection that I conducted at the Circleville Transfer Station, located at 21955 Hassel Drive, Circleville, Ohio. The inspection was conducted on December 14, 2010, to determine compliance with your industrial storm water permit. Your facility is a mixed solid waste transfer station. The following items were noted during the inspection:

1. The facility appeared to be well kept and there was very little debris outside the working area.
2. A spill kit and an emergency contact list were available if needed.
3. Loading and unloading were done inside the building.
4. Leachate and storm water was collected from the working area and pumped into two leachate tanks. The tanks were located inside contained area.
5. A storm water pollution prevention plan and a spill prevention plan were developed for this facility. Please update the plans annually or when there is a change in management.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3851.

Sincerely,

Gregory L. Sanders
Environmental Specialist
Division of Surface Water
Central District Office
