**Re: Georges Creek, Fairfield County**

Dear Mr. Bauer

This letter is written regarding the storm water inspection that I conducted at Georges Creek in Fairfield County, on November 19, 2010. I understand that these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. There was no active construction during my inspection and no homes were under construction. The purpose of the inspection was to ensure continued compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, I noted the following:

**Sediment and Erosion Controls:**

- It appeared that the barren areas on site have been stabilized. There was no sediment eroding off-site. You appear to be in compliance with your general storm water construction permit.

If you have any questions regarding this letter or my inspection, please do not hesitate to call me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders  
Environmental Specialist  
Division of Surface Water  
Central District Office
