**Re: Saia Motor Freight Line, LLC / Franklin County
Industrial Storm Water Permit 4GR00517*DG**

Dear Mr. Davis:

This letter is written in regard to the storm water inspection that I conducted at Saia Motor Freight Line, LLC, located at 1717 Kreiger Street, Columbus, Ohio. The inspection was conducted on November 2, 2010, to determine compliance with your industrial storm water permit. Your facility is a trucking and distribution company. The following items were noted during the inspection:

1. The facility was well kept and no staining was noted on the parking or loading/unloading areas.
2. There was truck parking located in the northeast corner of the property on asphalt. It is recommended that these areas drain to an oil-water separator but it is not required since there was no oil staining in the parking area.
3. There were used brake pads stores outside. These brake pads should be stored under cover or inside. The maintenance manager stated that these would be stored inside.
4. The fueling station had spill kits that included oil booms and absorbent.
5. The storm water pollution prevention plan (SWP3) needs to be updated annually or after there is new management staff.
6. The inspection forms located in the SWP3 need to be completed during the inspections.

Ted Strickland, Governor
Lee Fisher, Lieutenant Governor
Chris Korleski, Director
