**Re: Bluegrass Farms / Fayette County
Permit Number: 4GC03367 *AG**

Dear Mr. Luckenbach:

This letter is written regarding a meeting that was held at Bluegrass Farms located at State route 729, 1075 Mile North of Old Us Route 35 Jefferson Township, OH, on November 1, 2010. The purpose of the meeting was to discuss post construction water quality treatment for the site. The Fayette County Soil & Water Conservation Service, Schaeffer Engineering and R.B. Jergens also had staff in attendance at the meeting. A site inspection was conducted after the meeting to better understand the topography of the land. The Ohio EPA agreed to entertain the proposal of using a grass filter strip on the sides of the road in lieu of using storm water sediment basins for post construction water quality treatment for the site. Your consultant, Chris Schaeffer, stated that he would submit a revised storm water pollution prevention plan with revised erosion control sheets for our review.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at 614-728-3851 or email at greg.sanders@epa.state.oh.us.

Sincerely,

Gregory L. Sanders
Environmental Specialist
Division of Surface Water
Central District Office

c: Jeff Bohne, Water Quality Supervisor, DSW/CDO
Chris Schaeffer, P.E., Schaeffer Engineering
Victor Roberts, P.E., R.B. Jergens.
