**Re: Construction Storm Water Inspection at Settlement at Pataskala Phase 4
Licking County
Permit Number: 4GC02415 *AG**

Dear Mr. Hostettler:

This letter is written regarding a storm water inspection I conducted at Settlement at Pataskala on August 4, 2011. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit associated with Construction Activities. During the inspection, our staff noted the following issues associated with construction activities at this site:

Site Status:

- The site has remained idle for a period extending one year. It appears there is successful vegetation for the barren areas sufficient to control erosion.
- Please address in your response letter the status of the site to ensure continued compliance with the General Storm Water Permit.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at 614-728-3844 or email at harry.kallipolitis@epa.state.oh.us. In addition, please provide a written response (**email preferred**) to the action items addressed above within ten days from receipt of this letter. A follow-up inspection will be conducted to ensure the minimum conditions of the General Permit have been met.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
Central District Office
