**Re: Construction Storm Water Inspection at Woodstream, Section 4, Phase 1
Fairfield County
Permit Number: 4GC03390 *AG**

Dear Mr. Ohlin:

This letter is written regarding a storm water inspection conducted by Greg Mann and Daelann Farnlacher of the Ohio EPA at Woodstream, Section 4, Phase 1 located at 8033 Shady Maple Drive Pickerington, Ohio on August 2, 2011. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, our staff noted the following issues associated with construction activities at this site:

Sediment and Erosion Control:

- The sediment and erosion controls at this site are currently functioning properly. Please continue to monitor and ensure continued compliance with the General Storm Water Permit Associated with Construction Activities.

Post Construction Requirements:

- The General Storm Water Permit requires specific post construction water quality treatment for all sites. Guidance regarding the post construction requirements is found at: <http://www.epa.state.oh.us/dsw/storm/CGPPCQA.aspx>. Please submit to my attention (email preferred at harry.kallipolitis@epa.state.oh.us) which practice will be installed at this site to ensure compliance with the General Permit. Please include all design criteria and calculations in your submission.
