**Re: Construction Storm Water Inspection at Eversole Business Park
Fairfield County
Permit Number: 4GC03423 *AG**

Dear Mr. Eversole,

This letter is written regarding a storm water inspection conducted by Greg Mann and Lauren Burns of the Ohio EPA at Eversole Business Park located on Victor Road between Kull Road and Election House Road in Greenfield, Ohio on August 1, 2011. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, our staff noted the following issues associated with construction activities at this site:

Sediment and Erosion Control:

- There were noted dewatering activities associated with the basin at the northwest corner of the site. During the inspection, our team addressed concerns that the dewatering activities may result in turbid discharges to waters of the state. Please be aware that any turbid discharges to waters of the state could result in a Violation of your General Permit (See Figure 1).
- Please be aware I will speak with Chad Lucht of Fairfield County and express my concern for a larger buffer zone between the dewatering area and waters of the state.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at 614-728-3844 or email at harry.kallipolitis@epa.state.oh.us.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
Central District Office
