Dear Mr. Spencer:

This letter is written regarding the storm water inspection conducted by Lindsey Boaz and Kelsey Heyob of the Ohio EPA at Mulch Manufacturing located at 6747 Taylor Road Southwest Reynoldsburg, Ohio on July 7, 2011. The Agency understands that these construction activities are currently covered under the General Storm Water Permit associated with Industrial Activities. Based on the site inspection and the General Storm Water Permit, the following items were noted:

**Site Observations:**

- The storm water pond located on the northern portion of the property appears to be functioning properly. The impoundment should continue to be cleaned out once a year to ensure ample storage capacity or once 50 percent of the design capacity is eliminated.
