**Re: Construction Storm Water Inspection at Alum Creek Village / Franklin County
Permit Number: 4GC00210*AG**

Dear Mr. Huss:

This letter is written regarding a storm water inspection conducted by Harry Kallipolitis, Greg Mann, Lindsay Boaz, Kelsey Heyob, and Daelann Farnlacher of the Ohio EPA at Alum Creek Village located at Alum Creek Drive & Watkins Road, Columbus, Ohio 43213 on June 21, 2011. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, our staff noted the following issues associated with construction activities at this site:

Sediment and Erosion Control:

- Our staff noted that the centralized sediment basin was correctly modified for sediment control and is functioning as intended.
- The inlet protections were well maintained and seem to be functioning properly.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at 614-728-3844 or email at harry.kallipolitis@epa.state.oh.us.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
Central District Office
