Director's Final Findings
and Orders

PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders ("Orders") are issued to Bonded Chemicals, Inc. ("Respondent") pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency ("Ohio EPA") under Ohio Revised Code ("ORC") 3753.08.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in ownership of the Respondent or of the facility (as hereinafter defined) shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 3745 and the rules promulgated thereunder.

IV. FINDINGS

The Director of Ohio EPA makes the following findings:

1. Respondent owns and operates a chemical distribution facility for municipalities, which includes stocking and distribution of a complete line of industrial chemicals. The facility is located at 2645 Charter Street, Columbus, Ohio. Chlorine is delivered in 150 pound cylinders by the supplier and has a total of 22,000 pounds on site. The process for which this regulated substance is employed is a "covered process" within the meaning of Ohio Administrative Code ("OAC") Rule 3745-104-01. The "covered process" at Respondent's facility is subject to Program 2 instead of Program 3 because 99% of the sales are to end users.

2. Pursuant to OAC Rule 3745-104-02, an owner or operator of a stationary source, which has more than a threshold quantity of a regulated substance in a process, shall comply with the requirements of this rule by submitting a Risk Management Plan ("RMP") to Ohio EPA no later than June 21, 1999. Respondent submitted RMPs to Ohio EPA in 1999, 2003, and June 2009. The RMP was required to be resubmitted in August 2008, according to OAC Rule 3745-104-49(B)(1) that requires the RMPs to be updated every five years.
3. On May 8, 2003, an inspector with the Ohio EPA, Division of Air Pollution Control ("DAPC") conducted the initial five-year inspection at Respondent's facility, and discovered five rule violations which resulted in February 17, 2004, Director's Final Findings and Orders. A penalty was assessed for \$15,290, the Respondent corrected the violations and brought the facility into compliance.
4. On July 14, 2011, Ohio EPA conducted a second five-year inspection at Respondent's facility and discovered the following five violations of the rules. Three of the violations were the same violations that were included in the 2003 enforcement case.
 - (a) Respondent failed to maintain the population data for the hazard assessments, in violation of OAC Rule 3745-104-12.
 - (b) Respondent failed to maintain the records for the worst case and alternative scenarios for the worst case and alternative scenarios in violation of OAC Rule 3745-104-15. This is a repeat violation of the 2003 enforcement case.
 - (c) Respondent failed to conduct a hazard review every five years, in violation of OAC Rule 3745-104-18. This is a repeat violation from the 2003 enforcement case.
 - (d) Respondent failed to create and implement a maintenance program, in violation of OAC Rule 3745-104-21. This is a repeat violation from the 2003 enforcement case.
 - (e) Respondent failed to timely revise, update and submit the RMP within five years of its most recent update in August 2008, in violation of OAC Rule 3745-104-49(B)(1).
5. A hazard review was submitted that was dated July 15, 2011, but it had no person(s) responsible for conducting it or a list of attendees.
6. A letter dated August 3, 2011, was sent to Respondent requiring the above deficiencies to be corrected within thirty days of receipt of the letter.

7. On August 31, 2011, Respondent submitted documentation to resolve Findings 4(a) and 4(c), and partially resolve Finding 4(d). Finding 4(e) could not be resolved due to timeliness.
8. On September 9, 2011, Respondent resolved 4(b) and 4(d). All of the violations have been remedied.
9. ORC § 3753.06 prohibits violations of the provisions of ORC Chapter 3753 or any rule adopted or issued under it. Respondent violated rules adopted under ORC Chapter 3753, specifically, the rules cited in Findings 4(a), 4(b), 4(c), and 4(d) from May 2004 (the year after the first inspection) to September 9, 2011 (when correct documentation was submitted). Finding 4(e) was violated from August 2008 to June 2009.
10. The Director has given consideration to, and based his determination on, evidence relating to the technical feasibility and economic reasonableness of complying with the following Orders and benefits to the people of the State to be derived from such compliance.
