Return to Compliance

September 30, 2011

Mr. Ben Fogle, Environmental Manager
Lafarge Corporation
11435 CR 176
P. O. Box 160
Paulding, Ohio 45879

Dear Mr. Fogle:

The Division of Air Pollution Control (DAPC) issued a Notice of Violation (NOV) dated July 7, 2011, citing failure to perform formal fugitive dust inspections for the roadways (emissions unit F003); and associated failure of any records for such inspections. The agency has since received the company's letter (with attachment) of September 2, 2011, which includes the first month of records showing the formal implementation of the fugitive dust inspections.

Based on the company's responses to the NOV, we have determined that the compliance plan is acceptable. The actions taken have corrected the violations and this emission unit is now being operated in compliance with the permit requirements. Please note, however, that this does not preclude the Director from seeking civil penalties pursuant to ORC section 3704.06 for these violations. The decision on whether to pursue or decline to pursue such penalties regarding this matter is dependent on several factors, one of which is the company's future compliance with applicable Ohio EPA requirements.

Should the company have any questions and/or comments, I may be reached at (419) 373-3117. I may also be contacted electronically by E-mail at: paul.chad@epa.state.oh.us

Sincerely,

Paul Chad
Division of Air Pollution Control
