RE: GREGORY INDUSTRIES

RETURN TO COMPLIANCE

Mr. Brian Lester, Plant Manager
Gregory Industries
4100 13th Street SW
Canton, OH 44710

Dear Mr. Lester:

On March 29 and April 4, 2007, additional information was received in response to a Notice of Violation dated February 2, 2007. Your submittal included information on: personnel training, container inspections, tank inspections and universal waste management. Review of this information indicates that all remaining violations cited, have been abated.

Additionally, the concerns identified also appear to have been addressed. In regard to the sump that was closed in the hazardous waste storage tank containment area, it is understood that the sump was contained in a plastic box. The plastic box was removed prior to the sump being concreted over. At the time of closure for your hazardous waste storage tank area and the former sump, you may be required to provide additional information, or effort, to insure proper closure of this area has been completed.

No further response is required at this time. If you have questions or require additional information, you may contact me at (330) 963-1146 or at ron.shadrach@epa.state.oh.us.

Sincerely,

Ronald J. Shadrach
Division of Hazardous Waste Management
