**RE: LEIKIN MOTOR COMPANIES
OHD018443465
NOTICE OF VIOLATION**

Michael Bonitati
Leikin Motor Companies
38750 Mentor Ave.
Willoughby, OH 44094

Dear Mr. Bonitati:

On September 14, 2011, I inspected Leikin Motor Companies (Leikin) located at 38750 Mentor Avenue, Willoughby, Ohio. The purpose of this was to determine if Leikin was in compliance with Ohio's hazardous waste and used oil laws and rules as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

Leikin generates a hazardous waste paint and solvent from its painting operations. You have decreased the amount of this generated by using disposable plastic cups to hold the paint in the sprayer. You typically generate less than 220 pounds of hazardous waste per calendar month. This classifies you as a Conditionally Exempt Small Quantity Generator. A completed checklist covering the rules for such a generator is enclosed, along with a completed used oil and universal waste checklist.

We saw a 5-gallon can in the paint mixing room which is used to collect your hazardous waste. This can had an open funnel in it. This should be kept closed to avoid evaporation (and the resulting employee exposure) and to create less of a spill and fire hazard. The cap on the drum should either be screwed in or you should use a screw-in funnel with a tight fitting lid. We also saw one full and one partially full 55-gallon drum of hazardous waste stored outside in a containment structure.

The following violation was found:

1. **OAC Rule 3745-273-13 (D)(1) - Universal waste lamp containers.**

This rule requires universal waste lamps to be in closed containers or packages that are structurally sound and adequate to prevent breakage.

Leikin violated this rule by having waste fluorescent lamps that were not in a closed container or package. Please contact me when you have corrected this.
