CERTIFIED MAIL

Dear Mr. Malone:

On October 22, 2007, Ohio EPA sent you a letter in response to your October 11, 2007 letter regarding the violations cited in Ohio EPA's August 27, 2007 Notice of Violation (NOV). The October 22, 2007 letter required you to address violation #4 from the NOV:

**4. Hazardous Waste Determination
OAC 3745-52-11**

Any person who generates a waste in the state of Ohio...shall determine if the waste is a listed hazardous waste...

There were four 55-gallon steel drums located behind the tire shed that contained unknown liquids. You must properly characterize and dispose of these liquids. You must submit a copy of documentation that support the characterization and a copy of the disposal documentation. You have failed to submit the requested documentation. To abate this violation, you must submit the requested documentation within 15-days of the date of this letter.

Please note that failure to address this violation may result in escalated enforcement action.

Failure to list specific deficiencies in this communication does not relieve Lifetime Brake and Lube from the responsibility of complying with all applicable Ohio EPA laws and regulations. Please be advised that present or past instances of non-compliance can continue as subjects of pending or future enforcement actions.

Please feel free to contact me at (330) 963-1170 if you have any questions about the inspection or this letter.

Sincerely,
