Dear Mr. Sheldon:

On November 29, 2006, I sent you a letter regarding Lakeside Industrial Park and Rail Yard, Inc. (Lakeside) located at 2100 State Road in Ashtabula, Ohio. Below I will outline the current status of the violations found during my previous inspections.

1. Universal waste regulations
Please inform me as to whether your recent shipment of waste batteries included the battery pack shown in the attached picture which was stored in a building separate from the other batteries.
2. Generator identification numbers
Previously corrected.
3. Hazardous waste determination
I have received a manifest showing the shipment of 55 gallons of combustible liquid (not RCRA regulated) to Chemical Solvents in Cleveland, Ohio. I have also received a bill of lading showing the shipment of 14 skids of misc. electronic scrap to APEX in Florence, Kentucky.

I understand that various smaller containers will be taken to the BizMat Center in Akron, Ohio. Please inform me when this has been done.

You can find copies of the regulations and other information on the Division of Hazardous Waste Management web page at <http://www.epa.state.oh.us/dhwm/>.
