Re: Air emissions unit P002 reporting requirements
Facility ID: 0855140493

Dear Mr. Hillman:

WARNING LETTER

The Regional Air Pollution Control Agency (RAPCA) has recently been reviewing our files to determine whether or not facilities are in compliance with any reporting requirements identified in permit terms and conditions. Upon review of Ametek Prestolite Power and Switch's (Ametek) files, RAPCA identified that the permit for air emissions unit P002, South Varnish tank and associated ovens, requires annual reports be submitted to RAPCA.

Specifically, Part II, Special Terms and Conditions, Section D.2., of the Permit To Operate (PTO) issued on 02/15/2006, requires that Ametek submit annual compliance reports by January 31 of each year that specify the total VOC emissions from this emissions unit for the previous calendar year. To date, RAPCA has not received the 2006 annual compliance report.

RAPCA would also like to make you aware of additional reporting requirements for this unit. Per Part II, Special Terms and Conditions, Section D.1., of the PTO, Ametek shall notify RAPCA in writing of any monthly record showing the use of noncomplying coatings.

Ametek is hereby notified of the failure to submit an annual compliance report to RAPCA as required by the Special Terms and Conditions of the PTO. The failure to submit the report is in violation of the PTO and Ohio Revised Code (R.C.) 3704.05. RAPCA requests that Ametek submit the missing report for the air emissions unit P002 within 14 days of receipt of this letter. Please include the calculation in the annual report. In addition, Ametek shall submit a copy of the recordkeeping as outlined in Part II, Special Terms and Conditions, Section C.1. and C.2., of the PTO for the months of May 2006 and August 2007. In order to determine compliance, the recordkeeping forms must accompany the report.

Mr. Hillman
