WARNING LETTER

Dear Property Owner:

On June 29, 2011, the Regional Air Pollution Control Agency (RAPCA) received a complaint that open burning of structural material waste from a burned house on the property was occurring at 3053 Maysville Street in Bowersville Village, Greene County, Ohio. RAPCA performed an inspection of the premises on June 29, 2011 and observed a burn site containing miscellaneous debris including insulation and wood waste. This burn site was approximately five to six feet in diameter and was located in a restricted area. No one was available at the time of RAPCA's inspection, so a door hanger was left on the garage door of the standing structure on the property with contact information to discuss this complaint and the open burning regulations applicable in your area. To date, RAPCA has not been contacted by anyone regarding this property.

Pursuant to Ohio Administrative Code (OAC) rule and Greene County Board of Health Air Pollution Control Regulations (GCBHAPCR) section 3745-19-03, Open Burning in Restricted Areas, open burning for residential waste disposal purposes is prohibited in any area within the boundary of any municipal corporation, such as Bowersville Village. In addition, open burning of buildings/building materials is strictly prohibited anywhere in the State of Ohio.

The open burning that has occurred, due to the fact that the burn site was located in a restricted area and contained building materials, is in violation of OAC rule and GCBHAPCR section 3745-19-03.

This letter serves as official notification from RAPCA to cease all open burning activities in violation of state and local air regulations. RAPCA requires that any remaining waste on this property be disposed of in a manner which is in compliance with all air and solid waste regulations. Any further violations of the air regulations may result in enforcement actions against you, which include criminal and/or civil penalties.

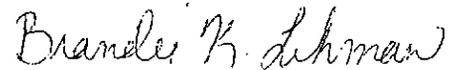

3053 Maysville Street

June 30, 2011
