**RE: Ohio EPA Facility ID 0857731582
Failure to perform annual stage II vapor recovery compliance testing**

WARNING LETTER

Dear Mr. Shaqra:

Pursuant to Ohio Administrative Code (OAC) rule and Montgomery County Combined General Health District Air Pollution Control Regulations (MCCGHDAPCR) section 3745-21-09 (DDD)(2), the stage II vapor control system at the Wagoner Ford Sunoco gasoline dispensing facility (GDF) located at 2250 Wagoner Ford Road in Dayton, Ohio, must perform and successfully pass the testing requirements contained in OAC rule 3745-21-10. In accordance with the yearly static pressure decay testing requirements specified in CARB Executive Order G-70-153-AD and the Static Leak Test contained in OAC rule 3745-21-10, Appendix A, Static Leak testing and Air to Liquid Ratio (A/L) testing shall be successfully conducted at least once in each twelve consecutive month period after the date of successful completion of the startup or most recent Static Leak Test.

OAC rule and MCCGHDAPCR section 3745-21-09 (DDD)(1) state: "no owner or operator of a gasoline dispensing facility may cause, allow or permit the transfer of gasoline from a stationary storage tank at a GDF into a motor vehicle . . . unless the following requirements are met: . . . (c) The vapor control system has successfully passed the testing requirements contained in paragraph (DDD)(2) of this rule." This GDF is required to demonstrate compliance on an annual basis. The last successful stage II vapor recovery compliance test conducted at this GDF was on January 8, 2007. On November 3, 2008, the Regional Air Pollution Control Agency (RAPCA) issued an Official Order to Wagoner Ford Sunoco, requiring this GDF to schedule an annual stage II vapor recovery compliance test within thirty (30) days of the issuance of the Order. To date, no testing has been scheduled with RAPCA at this site. Wagoner Ford Sunoco is currently

operating in violation of OAC rule and MCCGHDAPCR section 3745-21-09 (DDD)(2) and the prohibitions in Ohio Revised Code (ORC) section 3704.05.

This letter serves as official notification from RAPCA to cease operation in violation of OAC rule and MCCGHDAPCR section 3745-21-09 (DDD)(2) and ORC section 3704.05. It is imperative that Wagoner Ford Sunoco schedule and show compliance with stage II testing requirements.

Please respond, in writing, to this notice within fourteen (14) days after receipt. The response will specify the intended test date. Your tester should contact Lynn Thompson, at (937) 225-4437, to ensure a RAPCA representative is present at your scheduled testing.

Failure to perform the required testing will subject this facility to further enforcement actions, which may include penalties. If you have any questions or comments concerning this matter, please feel free to contact me at (937) 225-5923.

Sincerely,

Brandie K. Lehman
