Re: Grace Bible Church / Franklin County

Dear Mr. Hadaway:

This letter is written regarding the storm water inspection I conducted of the construction activities at the Grace Bible Church, along Gender Road, in Franklin County, on January 22, 2010. I understand this site is currently covered under the General Storm Water Permit Associated with Construction Activities. Based on my site inspection and the conditions set forth in the General Permit, the following items must be addressed:

Sediment and Erosion Controls:

1. I noted construction activity at the site. The site had perimeter silt fence. No erosion appeared to be leaving the site. Please inspect the perimeter fence weekly or after a significant rain event and keep a log of the weekly inspections on-site.
2. I noted a storm water sediment basin had been installed with riser.
3. I noted that most of the barren area at the site was stabilized straw crimped into the soil.
4. There is one area directly upstream of the storm water sediment basin that needs to be stabilized (straw crimped into the soil). Please see attached pictures.

Ted Strickland, Governor
Lee Fisher, Lieutenant Governor
Chris Korleski, Director
