**Re: Advance Industrial Manufacturing Inc. / Franklin County  
Industrial Storm Water Permit 4GR00444\*DG**

Dear Mr. Wintzer:

This letter is written in regard to the storm water inspection that I conducted at Advance Industrial Manufacturing, Inc. located at 1996 Longwood Avenue, in Grove City, Ohio. The inspection was conducted on January 11, 2010, to determine compliance with your industrial storm water general permit. You stated that you are a steel fabrication metal shop and your main clients are American Electric Power, Babcock & Wilcox and the Goodyear Tire & Rubber Company. You stated that some parts that your company fabricates include coal pollution prevention equipment and parts for boiler systems. I did not note any discharge from your facility to storm water drains, waters of the state or off of your property. Overall, the facility appeared to be well-kept and compliant with your industrial storm water general permit. The following items were noted during the inspection:

1. Snow covered most of the site during the inspection. The facility had chemicals storage in a secondary containment locker. No issues were noted with the stored chemicals at the site.
2. Raw material and final product storage was located outside. It did not appear that the metal parts were causing any discharge by being stored outside.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3851.

Sincerely,

Gregory L. Sanders  
Environmental Specialist  
Division of Surface Water
