Re: Diley Town Center / Fairfield County

Dear Mr. DiCesare:

This letter is written regarding a storm water inspection that I conducted on December 15, 2009, at Diley Town Center located near the intersection of Windmill Drive and S.R. 256 in Pickerington, Ohio. The Agency understands that these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. Based on the site inspection and the General Storm Water Permit, the following was observed or discussed at the site:

- There was one parcel that was near completion (Pizza Cottage) and the adjacent parcel had been stabilized. There did not appear to be any erosion leaving the site and all barren areas were stabilized. You appeared to be in compliance with your General Storm Water Permit. Please see attached pictures.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders
Environmental Specialist
