**Re: Spires Paving / Fairfield County**

46KN00318 #DG

Dear Mr. Hein:

This letter is written as follow up to a storm water inspection that I conducted at Spires Paving located at 1510 East Chestnut Street, in Lancaster, Ohio. The inspection was conducted on June 15, 2010, as a result of a previous complaint. This letter also serves as a need to apply for an industrial storm water permit. You must immediately apply for an industrial storm water permit and address the following issues.

- There were stockpiles of dirt, stone and asphalt in the parking lot. There was a discharge of sediment leaving the stockpile. The stockpiles must be placed in secondary containment and under roof or removed from the site. Please see attached pictures.
- Old parts and tanks appeared to be disposed of in the parking lot in the rear of the building. The old parts and tanks should be disposed of properly. Please see attached pictures.
- You may find additional information regarding the industrial storm water permit application at the following weblink:  
<http://www.epa.state.oh.us/dsw/storm/stormform.aspx>.

If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3851.

Sincerely,

Gregory L. Sanders  
Environmental Specialist  
Division of Surface Water  
Central District Office
