**Subject: Notice of Violation of failure to issue public education materials for lead action level exceedance**

Dear Father Ciccolini:

A review of our records indicates that your public water system incurred violations of rule 3745-81-85 (C)(4) and (C)(5) of the Ohio Administrative Code (OAC) for failure to distribute public education information via pamphlets, brochures, or electronic transmission on lead in drinking water to each person served by the IBH Multi Purpose Bldg. water system by November 29, 2007 and November 29, 2008. The delivery of public education material is required whenever a public water system exceeds the lead action level and every 12 months thereafter as long as the exceedance continues. Your public water system exceeded the lead action level during the sampling period from June - September 2006.

Please note that you are still required to distribute the lead public educational materials within 30 days of receipt of this letter and submit verification of distribution to this office not more than 10 days after distribution. Public education must be distributed every 12 months as long as the water system exceeds the lead action level.

**Actions required as a result of the above violations**

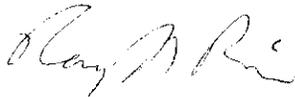

Step 1	<b>Within 30 days</b> issue the attached public notice of the violation in accordance with rule 3745-81-32 of the Ohio Administrative Code by the following method(s) to reach all persons served by the public water system:  1. Posting in conspicuous locations (restrooms, drinking fountains, vending areas, restaurants, bulletin boards, etc.)
Step 2	Fill out the attached verification form and send along with a copy of the public notification issued within 10 days to the Northeast District Office of the Ohio EPA.
