Mt. Eaton, Ohio 44659**SUBJECT: CCR VIOLATIONS**

Dear Mr. Hewitt:

Ohio EPA has reviewed the 2007 Consumer Confidence Report (CCR) for the Village of Mount Eaton PWS on September 12, 2008. The CCR was reviewed for the required content. Based on our review, the Village of Mount Eaton public water system is in violation of the Ohio Administrative Code (OAC) Rules 3745-96-01 through 04 for failure to comply with the CCR requirements, the following violations were noted:

1. Some of the required source water information was missing. Specifically, source water susceptibility language from your SWAP report was missing. A copy of this language is enclosed for your use.
2. The Table of Detected Contaminants was missing some information. You must list contaminants detected in your drinking water for the subject year, or the last time a contaminant was tested (since not all contaminants are sampled for annually).

Be sure to correct the violation(s) as appropriate in your next CCR. The next report for calendar year 2008 must be sent to your customers by no later than July 1, 2009. A copy of the CCR along with a Certification Form must be submitted to the Northeast District Office at the above address. Violations in future reports may result in further enforcement action.

If you have any questions, please contact me at (330) 963-1194.

Sincerely,

Beth Madis, Environmental Specialist  
Division of Drinking and Ground Waters
