Mr. David Vanni & Ms. Pat Boesel
Mack's Food Center
9945 Greenwich Road
Lodi, OH 44254

Subject: Notice of Violation - Failure to Sample Drinking Water as Required for Total Coliforms

Dear Mr. Vanni & Ms. Boesel:

Your public water system is in violation of Rule 3745-81-21 of the Ohio Administrative Code for failure to comply with the coliform monitoring requirements:

| | |
|------------------------------------|-----------------------------|
| Monitoring Period: | January - March 2007 |
| Required Coliform Sampling: | One/Calendar Quarter |
| Sample Results Submitted: | None |

| Actions required as a result of the above violation | |
|--|--|
| Step 1 | <p>Within 30 days issue the attached public notice of the violation in accordance with rule 3745-81-32 of the Ohio Administrative Code by the following methods:</p> <ol style="list-style-type: none"> Continuous posting, mail, or other direct delivery; and If necessary, the system must also use any other method reasonably calculated to reach all persons served by the public water system. <p><i>The language in italic on the attached public notice is mandatory language and must be included as written.</i></p> |

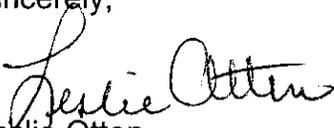

| | |
|--------|--|
| Step 2 | Within ten (10) days of completing Step 1 above, fill out the attached verification form and send along with a copy of the public notification issued to the District Office of the Ohio EPA. |
|--------|--|

If samples were taken, we have not received the results. Please forward a copy of the results to my attention. Late reporting is a reporting violation, but if the sample was taken and a result obtained, you will not need to issue the attached public notice.

We understand that quarterly nitrate samples were being collected instead of total coliform bacteria samples as required. This misconception has been corrected and sampling should be conducted as required in the future.

If you have any questions, please contact me at (330) 963-1235.

Sincerely,

Leslie Otten
