Jose Clayton  
Greater Cleveland Regional  
Transit Authority  
2500 Woodhill Road  
Cleveland, Ohio 44104

Dear Mr. Clayton:

On April 25, 2012, Kris Coder and I, representing the Ohio EPA's Division of Materials and Waste Management, conducted a hazardous waste compliance inspection of your facility located at 2500 Woodhill Road, Cleveland, Ohio. We inspected the facility to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

During the inspection, it was determined that the facility is a small quantity generator of hazardous waste (between 100 and 1,000 kilograms generated per month). The following violation of Ohio hazardous waste laws was found during the inspection:

**OAC Rule 3745-52-34(D)(5)(b), Preparedness and Prevention, Information Posted by the Telephone:** The generator must post the following information next to the phone:

- (i) The name and telephone number of the emergency coordinator;
- (ii) Location of fire extinguishers and spill control material, and, if present, fire alarm(s); and
- (iii) The telephone number of the fire department, unless the facility has a direct alarm.

GCRTA failed to post this information next to the phones near the hazardous waste accumulation areas.

On April 27, 2012, GCRTA emailed a digital photo of this information posted next to a phone. The violation was abated so no further action is required.

You may be able to reduce the waste your company generates. If you find ways to recycle, reduce or eliminate the amount of waste that your company generates you may be able to reduce treatment and disposal costs as well as regulatory requirements. If you would like a free, non-regulatory on-site pollution prevention assessment or if you would like more information about pollution prevention, please contact me at (330) 963-1163. Additional information can be found at <http://www.epa.state.oh.us/ocapp>.

c.	Is a copy of the reclamation agreement kept on-site for at least three years after termination/expiration of the agreement?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
NOTE: If wastes are reclaimed under a contractual agreement and an answer to questions 10(a) through 10(c) is no, the generator is in violation of 3745-52-20 (A) (B) & (D), 3745-52-22 and 3745-52-23. Even if the waste is being reclaimed under agreement, LDRs still apply. Complete LDR checklist.
