Webb Wrecking  
Complaint #3099  
Wood County  
Notice of Violation/Return to Compliance

November 14, 2011

Mr. Don Webb  
Webb Wrecking  
220 Central Avenue  
North Baltimore, Ohio 45872

Dear Mr. Webb:

On November 4, 2011, the Ohio Environmental Protection Agency (Ohio EPA) conducted a complaint investigation at the salvage yard you operate that is located on Galatea Road in Galatea, Ohio. The Ohio EPA received a complaint that you were mismanaging used oil and other automobile fluids. The complainant reported that the area is on well water and they were worried about possible contamination. This letter will explain the validity of the complaint and any hazardous waste violations we found as a result of the complaint investigation.

Webb Wrecking crushes automobiles on-site and takes them to Columbus Auto Shredding for recycling. You stated that the majority of the automobiles have no fluids left in them. Gasoline is removed from the vehicles prior to crushing and is used by the employees. Webb Wrecking does not do any body work and does not sell any automobile parts. Used oil is stored in a 300-gallon tank. Safety Kleen picks up the used oil.

Based upon my investigation, it appears that Webb Wrecking is attempting to capture the liquids, if any, remaining in the vehicles upon arrival at your facility. I did observe some staining on the ground at your facility. Ohio Administrative Code Rule 3745-279-22(D), states that used oil which is spilled onto the ground must be immediately cleaned up and managed properly. Webb Wrecking should continue to take the necessary steps to collect and properly use or dispose of all automotive fluids.

Used oil generators are required to: store used oil in containers which are in good condition and which are labeled with the words "used oil"; clean up any releases of used oil; transport used oil through registered used oil transporters; and recycle or dispose of the used oil properly. A copy of the fact sheet, The Regulation of Used Oil: An Overview for Ohio Businesses Who Generate Used Oil, was given to you at the time of my investigation. Please review this information and contact me if you have any questions.

At the time of my investigation, Webb Wrecking was not generating any fluorescent bulbs. A copy of Fluorescent Lamps: What You Should Know, was given to you at the time of my investigation. I recommend that you review this document and contact me if you have any questions regarding the proper management of spent fluorescent bulbs when generated.

Mr. Don Webb

I found the following violation of Ohio's hazardous waste laws.

**1. OAC Rule 3745-279-22(C)(1): Labeling:**

Containers, aboveground tanks, and fill pipes used for underground storage tanks shall be labeled or marked clearly with the words "used oil."

Webb Wrecking had one 300-gallon tank and one 55-gallon drum of used oil that were not properly labeled.

At the time of my investigation, Webb Wrecking properly labeled the 300-gallon tank and the 55-gallon drum with the words "used oil".

***Therefore, this violation is considered abated.***

Enclosed you will find a copy of the checklists that were completed during the complaint investigation.

The investigation performed by the Ohio EPA was conducted as a result of a complaint received by this Agency. A Comprehensive Compliance Evaluation Inspection was not conducted. The Ohio EPA did not find evidence to support the complainant's allegations; therefore, the Ohio EPA considers the complaint investigation closed.

Ohio EPA has helpful information about compliance assistance and pollution prevention at the following web address: <http://www.epa.ohio.gov/ocapp>. In addition, you can find copies of the hazardous waste rules and other information on the division's web page at: <http://www.epa.ohio.gov/dhwm/>.

If you have any questions or I can be of assistance, please contact me at (419) 373-3066.

Sincerely,

Melissa L. Boyers
