Re: Bills Collision
OHD986984144
Hazardous Waste
Seneca County
NOV

March 28, 2012

Mr. Bill Alspach, Owner
Bills Collision
583 North Sandusky Street
Tiffin, Ohio 44883

Dear Mr. Alspach:

Thank you for accompanying me during Ohio EPA's March 22, 2012, hazardous waste compliance evaluation inspection (CEI) of Bills Collision located at 583 North Sandusky Street, Tiffin, Ohio. I inspected Bills Collision to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734. of the Ohio Revised Code (ORC), and Ohio's hazardous waste regulations as adopted under Chapter 3745. of the Ohio Administrative Code (OAC). The inspection included a tour of facility operations and a review of facility paperwork. This letter will explain the violation I found and what you need to do to correct this violation.

Bills Collision is an auto body and collision shop for automobiles. Bills Collision does not conduct automotive repairs. Bills Collision had notified on August 14, 1990, as a small quantity generator (SQG) of hazardous waste but is currently a conditionally exempt small quantity generator (CESQG) of hazardous waste. Hazardous waste generated is solvent/paint waste (D001, D035, F003, F005). Other wastes generated are waste paint booth filters and lamps.

During the inspection, I gave you the following information: the Ohio EPA fact sheets: Running an Auto Collision Repair Shop? Know Your Ohio EPA Regulations – May 1999; Universal Waste Rules for Handlers of Lamps; Fluorescent Lamps: What you Should Know; Identifying your Hazardous Waste; Handling Paint Waste from your Business; a fact sheet I found on the Internet from the Environmental Protection Commission of Hillsborough County (Florida) entitled Paint Booth Filters which explains the proper management of paint booth filters; a sample universal waste management plan for lamps; a generator category sheet with the hazardous waste characteristics; a list of Commercial Environmental Laboratories and a list of lamp recyclers in Ohio.

Mr. Bill Alspach, Owner
March 28, 2012
Page 2

I found the following violation of Ohio's hazardous waste laws. Bills Collision needs to immediately take the necessary measures to return to compliance with Ohio's environmental laws. **Within 14 days of receipt of this letter**, Bills Collision is requested to provide documentation to this office including the steps taken to abate the violation cited below. Documentation of steps taken to return to compliance includes written correspondence, updated policies, and photographs, as appropriate, and may be submitted via the postal service or electronically to amber.hicks@epa.ohio.gov.

1. Waste Evaluation.
OAC Rule 3745-52-11

Any person who generates a waste must determine if that waste is a hazardous waste in accordance with the criteria for hazardous waste as set forth in Chapter 3745-51 of the Administrative Code.

- A. Bills Collision failed to have waste evaluation documentation or an established recycling plan in place for the fluorescent bulbs generated at the facility.

Bills Collision is currently disposing of their fluorescent bulbs in the trash.

- ***During the CEI on March 22, 2012, you stated that Bills Collision will now be managing their lamps as universal waste and recycling their lamps with Gross Electric in Toledo, OH. Thus this portion of the violation is abated.***
- B. Bills Collision has failed to evaluate the paint filters from the painting booth to determine if they are hazardous. Bills Collision is currently disposing of this waste stream in the local landfill. Bills Collision must immediately cease disposing of the paint booth filters as non-hazardous waste in the local landfill until a proper waste evaluation has been completed.

A waste evaluation can be conducted by taking a representative sample of this waste to properly evaluate this waste stream through a laboratory analysis which lists constituents present and at what concentration. Bills Collision must sample the paint filters from the painting booth to determine the Toxicity Characteristic Leaching Procedure (TCLP) concentrations of **all Resource Conservation and Recovery Act (RCRA) metals** (excluding mercury) and the **regulated volatile organic constituents (VOCs)** that may be present in the waste in light of the materials or the processes used as listed in OAC Rule 3745-51-24 following the methods as outlined in U.S. EPA's SW-846. You will need to ensure to collect at **least 100 grams of waste** to properly run the TCLP test.

Mr. Bill Alspach, Owner
March 28, 2012
Page 3

- **To abate this violation, Bills Collision must submit the analytical information from sampling to me. Your results must document if the waste is hazardous or not. If it is hazardous, you must explain what treatment, storage, or disposal facility you will send it to.**
- *If the waste is hazardous, I will determine the status of your compliance with other hazardous waste laws and notify you of my findings in a separate letter.*
- *Please consult the fact sheet Identifying your Hazardous Waste given to you during the CEI. You stated during the CEI that you would contact Jones & Henry Laboratories about potential sampling and would have them call me with any questions. Please feel free to have them call me to discuss your paint booth filter sampling.*

When sampling is performed, please notify me at least seven days prior to taking the samples so that I or an Ohio EPA representative may be present.

Please be advised that the violation cited above will continue until the violation has been properly abated. Failure to comply with Chapter 3734 of the Ohio Revised Code and rules promulgated thereunder may result in a civil penalty of up to \$10,000 per day for each violation. It is imperative that you return to compliance. If circumstances delay the abatement of violations, Bills Collision is requested to submit written correspondence of the steps that will be taken by date certain to attain compliance.

Pollution Prevention:

Bills Collision is beginning to recycle their fluorescent bulbs. I have enclosed a list of computer, fluorescent lamp and ballast recyclers which you may find useful. If you find additional ways to recycle, reduce, or altogether eliminate the amount of waste that your company generates you may be able to reduce treatment and disposal costs. Furthermore, you may possibly reduce your regulatory requirements. Or if you would like a free, non-regulatory on-site pollution prevention assessment or more information about pollution prevention, please contact me at (419) 373-3082. Ohio EPA has helpful information about this at the following web address: <http://www.epa.ohio.gov/ocapp/>

The Division of Materials and Waste Management has created an electronic news service to provide you with quick and timely updates on events and news related to hazardous waste activities in Ohio. If you haven't already, we encourage you to sign-up for this free service. You can find more information at the following Web link http://ohioepa.custhelp.com/cgi-bin/ohioepa.cfg/php/enduser/doc_serve.php?2=subscriptionpage. Please feel free to share this information with your colleagues.

Mr. Bill Alspach, Owner
March 28, 2012

Enclosed you will find a copy of the checklists that I completed during the inspection. Please address all correspondence to Amber Hicks, Ohio EPA, 347 N. Dunbridge Road, Bowling Green, Ohio 43402. Should you have any questions, please feel free to call me at (419) 373-3082 or email me at amber.hicks@epa.ohio.gov.

You can find copies of the rules and other information on the division's web page at <http://www.epa.ohio.gov/dmwm.aspx>.

Sincerely,

Amber M. Hicks
Division of Materials and Waste Management

Waste Codes for Federally Regulated Hazardous Wastes. Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page or list them in the comments if more space is needed. If the waste codes are the same as listed in the most recent RCRAInfo source record, you do not need to list them. Instead just indicate the date of the most recent source record.

Other:

**CONDITIONALLY EXEMPT SMALL QUANTITY GENERATOR REQUIREMENTS
COMPLETE AND ATTACH A PROCESS, WASTE, P2 SUMMARY SHEET**

CESQG: ≤100Kg. (Approximately 25-30 gallons) of waste in a calendar month or < 1 Kg. of acutely hazardous waste.
 SQG: Between 100 and 1,000 Kg. (About 25 to under 300 gallons) of waste in a calendar month.
 LQG: ≥ 1,000 Kg. (~300 gallons) of waste in a calendar month or ≥1 Kg. of acutely hazardous waste in a calendar month.
 NOTE: To convert from gallons to pounds: Amount in gallons x Specific Gravity x 8.345 = Amounts in pounds.

Safety Equipment Used:

WASTE EVALUATION

1.	Have all wastes generated at the facility been adequately evaluated? [3745-52-11]	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	N/A <input type="checkbox"/>
----	--	------------------------------	--	------------------------------

GENERATOR CLASSIFICATION

2.	Does the generator produce <100 kg. of hazardous waste per month? [conditionally exempt small quantity generator ("CESQG")]	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	N/A <input type="checkbox"/>
----	--	---	-----------------------------	------------------------------

NOTE: If quantities of hazardous waste accumulated on-site at any one time exceed 1,000 Kg. - or the generator produces between 100 and 1,000 Kg. of hazardous waste per month, it is operating as a Small Quantity Generator ("SQG"). If so, complete the Small Quantity Generator Requirements checklist.

OFF-SITE SHIPMENT OF HAZARDOUS WASTE

3.	Does the CESQG ensure delivery of hazardous waste(s) to an off-site permitted TSD? [3734.02(F)]	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	N/A <input type="checkbox"/>
----	---	---	-----------------------------	------------------------------

TREATMENT OF HAZARDOUS WASTE

4.	Does the generator treat hazardous waste in a:			
	a.	Container that meets 3745-66-70 to 3745-66-77?	Yes <input type="checkbox"/>	No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
	b.	Tank that meets 3745-66-90 to 3745-66-101 except 3745-66-97(C)?	Yes <input type="checkbox"/>	No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
	c.	Drip pads that meet 3745-69-40 to 3745-69-45?	Yes <input type="checkbox"/>	No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
	d.	Containment building that meets 3745-256-100 to 3745-256-102?	Yes <input type="checkbox"/>	No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Complete appropriate checklist for each unit.

NOTE: If the CESQG conducts treatment they are subject to the LQG requirements.

NOTE: If waste is treated to meet LDRs, use LDR checklist.

MIX HAZARDOUS WASTE WITH USED OIL

5.	Does the CESQG mix its hazardous waste with used oil for the purpose of burning for energy recovery? [3745-51-05(J)] If so:		Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	N/A <input type="checkbox"/>
	a.	Does the CESQG manage the mixture in accordance with 3745-279-21?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
