**RE: B2 AUTO CRUSHERS, 327 KEYSTONE, ALLIANCE, OHIO 44601
OHR000149161; AND; PICK-A-PART, 127 EAST KEYSTONE,
ALLIANCE, OHIO 44601 OHR000149179
COMPLAINT # 7521, STARK COUNTY, NOTICE OF VIOLATION**

Dear Mr. Barth:

On April 13 and 26, 2012, John Paquelet and I of the Ohio EPA Division of Materials and Waste Management conducted a hazardous waste complaint investigation at B2 Auto Crushers, 327 Keystone, and Pick-A-Part, located at 127 East Keystone, Alliance Ohio. The purpose of our visit was to investigate a complaint received by Ohio EPA alleging that used oil, fuel, antifreeze and batteries are being mismanaged at both locations. You represented the businesses during our investigation.

Both locations sell and recycle automobile parts and scrap metal. We walked through Pick-A-Part (OHR000149179) first. Typically cars are processed at Pick-A-Part to remove gasoline, oil, antifreeze, batteries, Freon, and mercury switches. We noted some oil stained soil but did not see any evidence of dumping of liquids. You told us that gasoline is removed and used in equipment on site, used by employees, or stored in a tank at B2Auto Crushers. Antifreeze is recycled on site and sold, and batteries are sold if they are still usable after being removed from cars. You showed me paperwork that verified that unusable batteries are recycled. You told us in the past that you have used Akron Canton Waste Oil or Everclear to remove used oil. You also mentioned that in the past you gave used oil to a buddy to burn in his used oil space heater. We told you that in order to continue doing so you would have to become a registered marketer of used oil. Since you do not wish to become a marketer, you stated that you would have your used oil transported off site by a registered used oil hauler.

We drove down the street and met you at B2 Auto Crushers. Here the cars are crushed and sent off for scrap. We noted a shed where you were accumulating used oil in labeled, 55-gallon drums, and also saw the tank you were using to accumulate gasoline removed from cars.

We did note at B2 Auto Crushers that there were many scrap tires on site and that the large pile of material that we saw appears to contain scrap metal and possibly solid waste. Solid waste issues will not be addressed in this letter and would be under the jurisdiction of the Alliance Health Department.

The complaint received by the Ohio EPA could not be verified. Our inspection focused on the hazardous waste and used oil rules and did not include any solid waste issues.

Although the complaint could not be verified, the following violations of the used oil rules were noted.

Violations 1 and 2 were noted at Pick-A-Part and both of them have been abated.

1. **Ohio Administrative Code (OAC) 3745-279-22(C)(1); Containers and above ground tanks that are used to store used oil must be labeled with the words, "Used Oil."**

We noted at Pick-A-Part an unlabeled 55-gallon drum used to collect used oil. This violation was abated the first day of the inspection when you wrote the words "Used Oil" on the container.

2. **OAC 3745-279-22(D); Generator must respond to used oil releases and perform cleanup steps.**

OAC rule 3745-279-22(D) requires that a generator of used oil, upon detection of a release of used oil, must stop the release, contain the release, and clean up and properly manage the used oil and other materials generated during clean up.

Used oil was noted on the ground at Pick-A-Part. On April 26, 2012, during the second day of the inspection, we noted that used oil that had been spilled onto the ground had been removed and replaced with gravel. This violation has been abated.

Violations 3 and 4 were noted at B2 Auto Crushers. Violation 3 has been abated but violation 4 remains and must be addressed:

3. **Ohio Administrative Code (OAC) 3745-279-22(C)(1); Containers and above ground tanks that are used to store used oil must be labeled with the words, "Used Oil."**

This violation was abated on the second day of the inspection, April 26, 2012

4. **OAC 3745-279-22(D); Generator must respond to used oil releases and perform cleanup steps.**

Although by the second day of the inspection some of the oil stained soil at B2 Auto Crushers had been removed, many areas of oil stained soil remain, and therefore, this violation remains outstanding.

Christian Barth
Pick-A-Part
May 9, 2012
Page 3

As we discussed during our visit, contaminated soil and debris from the cleanup may be managed as solid waste in a trash dumpster, provided that this is acceptable to your trash hauler. We did note that your trash dumpster contains oil stained soil which verifies that you are in the process of cleaning up the yard.

Ohio EPA uses a visual standard when determining whether a cleanup of released used oil and any media absorbing that used oil is adequate. Ohio EPA does not require confirmatory soil sampling and analysis to demonstrate that the release has been cleaned up.

As we discussed during the investigation, you may wish to pour a concrete pad to work on to reduce the amount of used oil spilling onto the soil.

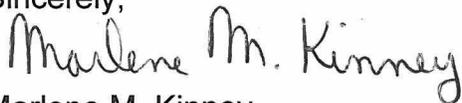

B2 Auto Crushers needs to immediately take the necessary measures to return to compliance with Ohio's environmental laws. Within 14 days of receipt of this letter, B2 Auto Crushers is requested to provide documentation to this office including the steps taken to abate the violations cited above. Documentation of steps taken to return to compliance includes written correspondence, updated policies, and photographs, as appropriate, and may be submitted via the postal service or electronically to marlene.kinney@epa.ohio.gov.

Please be advised that violations cited above will continue until the violations have been properly abated. Failure to comply with Chapter 3734 of the Ohio Revised Code and rules promulgated thereunder may result in a civil penalty of up to \$10,000 per day for each violation. It is imperative that you return to compliance. If circumstances delay the abatement of violations, B2 Auto Crushers is requested to submit written correspondence of the steps that will be taken by date certain to attain compliance.

You can find copies of the rules and other information on the division's web page at <http://www.epa.state.oh.us/dmwm.aspx>.

Should you have any questions, please feel free to call me at (330) 963-1162, or e-mail me at marlene.kinney@epa.state.oh.us.

Sincerely,

Marlene M. Kinney
Environmental Specialist

Pick-A-Part / B2 Auto Crushers

**CONDITIONALLY EXEMPT SMALL QUANTITY GENERATOR REQUIREMENTS
COMPLETE AND ATTACH A PROCESS, WASTE, P2 SUMMARY SHEET**

CESQG: ≤100Kg. (Approximately 25-30 gallons) of waste in a calendar month or < 1 Kg. of acutely hazardous waste.
 SQG: Between 100 and 1,000 Kg. (About 25 to under 300 gallons) of waste in a calendar month.
 LQG: ≥ 1,000 Kg. (~300 gallons) of waste in a calendar month or ≥1 Kg. of acutely hazardous waste in a calendar month.
 NOTE: To convert from gallons to pounds: $Amount\ in\ gallons \times Specific\ Gravity \times 8.345 = Amounts\ in\ pounds.$

Safety Equipment Used: Steel toe boots

WASTE EVALUATION

1. Have all wastes generated at the facility been adequately evaluated? [3745-52-11] Yes No N/A

GENERATOR CLASSIFICATION

2. Does the generator produce <100 kg. of hazardous waste per month? [conditionally exempt small quantity generator ("CESQG")] Yes No N/A

NOTE: If quantities of hazardous waste accumulated on-site at any one time exceed 1,000 Kg. - or the generator produces between 100 and 1,000 Kg. of hazardous waste per month, it is operating as a Small Quantity Generator ("SQG"). If so, complete the Small Quantity Generator Requirements checklist.

OFF-SITE SHIPMENT OF HAZARDOUS WASTE

3. Does the CESQG ensure delivery of hazardous waste(s) to an off-site permitted TSD? [3734.02(F)] Yes No N/A

TREATMENT OF HAZARDOUS WASTE

4. Does the generator treat hazardous waste in a:

a.	Container that meets 3745-66-70 to 3745-66-77?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
b.	Tank that meets 3745-66-90 to 3745-66-101 except 3745-66-97(C)?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
c.	Drip pads that meet 3745-69-40 to 3745-69-45?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
d.	Containment building that meets 3745-256-100 to 3745-256-102?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Complete appropriate checklist for each unit.

NOTE: If the CESQG conducts treatment they are subject to the LQG requirements.

NOTE: If waste is treated to meet LDRs, use LDR checklist.

MIX HAZARDOUS WASTE WITH USED OIL

5. Does the CESQG mix its hazardous waste with used oil for the purpose of burning for energy recovery? [3745-51-05(J)] If so:

a.	Does the CESQG manage the mixture in accordance with 3745-279-21?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
----	---	--

No HW on-site

Pick - A - Part / B2 Auto Crushers

USED OIL INSPECTION CHECKLIST GENERATORS, COLLECTION CENTERS AND AGGREGATION POINTS		
NOTE: A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.		
PROHIBITIONS		
1.	Does the generator manage used oil in a surface impoundment or waste pile? If yes:	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
a.	Is the surface impoundment or waste pile regulated as a hazardous waste management unit? [3745-279-12(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
NOTE: For example, used oil contaminated scrap metal stored in a pile.		
2.	Is used oil used as a dust suppressant? [3745-279-12(B)]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
3.	Is off-specification used oil fuel burned for energy recovery in devices specified in 3745-279-12(C)?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
NOTE: Multiple used oil checklists may be applicable if used oil handler is performing multiple tasks (e.g., if generating used oil and shipping directly to a burner, complete generator and marketer checklists at a minimum).		
GENERATOR STANDARDS		
4.	Does the generator mix hazardous waste with used oil? If so,	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
a.	Is the mixture managed as specified in 3745-279-10(B)? [3745-279-21(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
NOTE: Used Oil mixed with listed (3745-51-30 to 3745-51-35) or characteristic (3745-51-20 to 3745-51-24) hazardous waste are subject to regulation as a hazardous waste, unless the listed hazardous waste is listed solely because it exhibits a hazardous characteristic, and the resultant mixtures do not exhibit a characteristic. Mixtures of used oil and CESQG hazardous waste are subject to OAC Chapter 3745-279.		
5.	Does the generator of a used oil containing greater than 1,000 ppm total halogens manage the used oil as a hazardous waste unless the presumption is rebutted successfully? [3745-279-21(B)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
NOTE: If used oil contains greater than 1000 ppm total halogens, it is presumed to be listed hazardous waste until the presumption is successfully rebutted.		
6.	Does the generator store used oil in tanks; or containers; or a unit(s) subject to regulation as a hazardous waste management unit? [3745-279-22(A)]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
7.	Are containers and aboveground tanks used to store used oil in good condition with no visible leaks? [3745-279-22(B)]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
8.	Are containers, above ground tanks, and fill pipes used for underground tanks clearly labeled or marked "Used Oil?" [3745-279-22(C)]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
9.	Has the generator, upon detection of a release of used oil, done the following: [3745-279-22(D)]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input checked="" type="checkbox"/>
a.	Stopped the release?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
b.	Contained the release?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
c.	Cleaned up and properly managed the used oil and other materials?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
d.	Repaired or replaced the containers or tanks prior to returning them to service, if necessary?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
ON-SITE BURNING IN SPACE HEATER		
10.	Does the generator burn used oil in used-oil fired space heaters? [3745-279-23] If so:	
a.	Does the heater burn only used oil that owner/operator generates or used oil received from household do-it-yourself (DIY) used oil generators?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

b.	Is the heater designed to have a maximum capacity of not more than 0.5 million BTU per hour?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
c.	Are the combustion gases from heater vented to the ambient air?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Ash accumulated in a space heater must be managed in accordance with 3745-279-10(E).

GENERATOR TRANSPORTATION

11.	Does the generator have the used oil hauled only by transporters that have obtained a U.S. EPA ID#? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
12.	If the generator self-transported used oil to an approved collection site or to an aggregation point owned by the generator: [3745-279-24]	
a.	Does the generator transport used oil in a vehicle owned by the generator or an employee of the generator? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
b.	Does the generator transport more than 55 gallons of used oil at any time? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>

NOTE: Used oil generators may arrange for used oil to be transported by a transporter without a U.S. EPA ID # if the used oil is reclaimed under a contractual agreement (i.e., tolling arrangement).

COLLECTION CENTERS AND AGGREGATION POINTS

13.	Is the DIY used oil collection center in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-30]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
14.	Is the non-DIY used oil collection center registered with Ohio EPA? [3745-279-31]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
15.	Is the used oil aggregation point in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-32]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Complete Used Oil Generator and any other applicable used oil handler checklist (e.g., marketer, burner, etc.) for used oil collection centers and aggregation points.

→ Will no longer ship used oil to a buddy to burn in his space heater
