RE: **CANFIELD METAL COATING CORP.**
OHD 000 810 283
MAHONING COUNTY
NOV/RTC

David Jacobson
Canfield Metal Coating
460 W. Main St.
Canfield, OH 44406

Dear Mr. Jacobson:

On April 23, 2012, Rick Smith and I inspected Canfield Metal Coating located at 460 W. Main Street, Canfield, Ohio. The purpose of this was to determine if this facility was in compliance with Ohio's hazardous waste, universal waste and used oil laws and rules as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

Please see the attached Process and Waste Summary chart for my understanding of this facility's operations and wastes.

The following violations were found:

1. **OAC Rule 3745-279-22(C) - Used oil labels.**

This rule requires containers, aboveground tanks, and fill pipes for underground tanks used for used oil to be labeled or marked clearly with the words "Used Oil."

Canfield Metal Coating violated this rule by not clearly labeling its used oil tank. You sent an April 26, 2012 e-mail which explained that the tank had been labeled during the inspection but that a rack configuration blocked a clear view of the label. You also sent photos of two additional labels that have been added since. This documents the correction of this violation.

2. **OAC Rule 3745-279-22(D) - Response to releases of used oil.**

This rule requires that upon detection of a release of used oil to the environment, the generator must clean up and manage properly the released used oil and other materials.

Canfield Metal Coating violated this rule by having water with some oil in it in the containment system under your used oil tank. Your April 26 e-mail documented the correction of this violation.

Your waste paint rags (Hukill waste code 22457) may not actually be a hazardous waste. The enclosed document titled "Solvent-Contaminated Rags and Wipers" explains this.

**USED OIL INSPECTION CHECKLIST
GENERATORS, COLLECTION CENTERS AND AGGREGATION POINTS**

NOTE: 1. A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.

2. Inspectors can check BUSTR's web-site at https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/PublicInquiry.asp to determine if a UST containing used oil is registered with BUSTR. Inspectors may call BUSTR at 614-752-7938 or a BUSTR site coordinator to report an unregistered UST or a UST that appears to not be in compliance with BUSTR regulations. A list of BUSTR coordinators by county are at: https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/SearchByCounty.asp.

However, if a specific treatment method is given in 3745-270-40 for the HW, no determination is required [3745-270-07(A)(1)(b)].
