Subject: Monthly Operating Report, Failure to Submit

Dear Mr. Zimmerman:

According to OAC-3745-83-01 Operational Requirements, each community public water system shall prepare an operation report for each month of operation. This report should contain the free and total chlorine daily residuals in the distribution and at the plant tap. For the month of January 2009, Tecumseh Court MHP public water system failed to monitor for at least three consecutive days. There are no results reported for January 4, 6, 7, 8, and 9, 2009. This is a violation of the rule. Tecumseh Court MHP public water system shall provide an explanation in writing to Ohio EPA concerning this matter and explain what steps will be taken to ensure that future reports are submitted each month.

If you have any further questions or comments concerning your water system, please feel free to contact me at (937) 285-6085.

Sincerely,

Tya Darden
Division of Drinking and Groundwaters
Public Drinking Water Unit
