**Subject: Monthly Operating Report, Failure to Submit**

Dear Board Representative:

According to OAC-3745-83-01 Operational Requirements, each community public water system shall prepare an operation report for each month of operation. This report should contain the free and total chlorine daily residuals in the distribution and at the plant tap. For the month of **August 2009**, the Village of South Vienna public water system failed to send the monthly report to this office. This is a violation of the rule. The Village of South Vienna public water system shall provide an explanation in writing to Ohio EPA concerning this matter and explain what steps will be taken to ensure that future reports are submitted each month.

If you have any further questions or comments concerning your water system, please feel free to contact me at 937-285-6085.

Sincerely,

**Tya Darden**
