Subject: Monthly Operating Report, Failure to Submit

Dear Mr. Rucker:

According to OAC-3745-83-01 Operational Requirements, each community public water system shall prepare an operation report for each month of operation. This report shall contain the free and total chlorine daily residuals in the distribution and at the plant tap. For the month of **November 2009**, Garden Acres Water Company public water system failed to send the monthly report to this office. This is a violation of the rule. Garden Acres Water Company shall provide an explanation in writing to Ohio EPA concerning this matter and explain what steps will be taken to ensure that future reports are submitted each month.

If you have any further questions or comments concerning your water system, please feel free to contact me at 937-285-6085.

Sincerely,

Tya Darden
