Dear Mr. Miller:

I have received your May 15, 2012 letter which responded to the issues found at my March 2012 inspection of Willoughby Eastlake Technical Center located at 25 Public Square, Willoughby, Ohio. As outlined below, you have documented a correction of all the issues.

1. **OAC Rule 3745-52-11 - Hazardous waste determination.**  
Your letter described your current lamp recycling program which documents the correction of this violation.
2. **OAC Rule 3745-279-22(D) - Response to releases of used oil.**  
Your letter documents the correction of this violation.

Your letter stated that the cap on the drum of waste solvent in the auto body lab will be kept screwed in. This documents the correction of this concern.

If you have any questions, please contact me at (330) 963-1217, or [robert.almquist@epa.state.oh.us](mailto:robert.almquist@epa.state.oh.us).

Sincerely,

Robert Almquist
