Re: Tiffin Metal Products
Seneca County
Hazardous Waste
OHD077771277
RTC

April 25, 2012

Mr. Tim Demith
Tiffin Metal Products Company
450 Wall Street
Tiffin, Ohio 44883

Dear Mr. Demith:

Thank you for your April 4, 2012, response to Ohio EPA's Notice of Violation letter dated March 23, 2012. Tiffin Metal Product's (TMP) response included a management plan on how you will properly clean paint guns and dispose of spent paint booth filters in the future. TMP also submitted information that states you will begin collecting fluorescent lamps, managing them as universal waste and then recycling them through Chemtron Corporation. TMP also provided me with copies of the last two hazardous waste pickups as requested.

TMP has abated all violations found during our February 28, 2012, inspection and cited in my March 23, 2012, Notice of Violation letter. Below you will find a summary of the violations:

1. **Waste Evaluation, OAC Rule 3745-52-11:**

This violation was previously abated in my March 23, 2012, NOV letter. TMP determined that the paint booth filter waste is hazardous and it is being managed as such. No paint booth filters were disposed of. TMP does not expect to be generating this waste long term.

2. **Spent Lamps, Universal Waste Evaluation, OAC Rule 3745-52-11:**

TMP provided documentation on April 4, 2012, stating that lamps will be managed as universal waste in the future and recycled by Chemtron Corporation. Therefore, this violation is considered abated.

Mr. Tim Demith
