**Re: Village of New Vienna; Clinton County; Community Public Water Supply;  
PWS ID# 1400815, Monthly Operating Report**

Dear Mr. Collins:

Village of New Vienna violated Chapter 3745-83-01(G)(9)(b)(ii) of the Ohio Administrative Code (OAC) when the following operational requirements were not met during the month of December 2010:

**Violation 3745-83-01(G)(9)(b)(ii)**

The water system has failed to monitor for Iron/Manganese at the Plant Tap for Quality Control. A public water system serving two hundred and fifty or more persons that provides treatment to reduce iron shall monitor for iron at least weekly at each entry point into the distribution system using a state certified laboratory. A public water system serving two hundred and fifty or more persons may reduce the frequency of certified laboratory analyses for iron to no less than once each month provided the following conditions are met:

- (1) The public water system monitors once every day that water is available to the public for iron and manganese using an in-house test kit at each entry point into the distribution system. The test kit shall have a minimum detection level of 0.2 milligrams per liter for iron and a minimum detection level of 0.02 milligrams per liter for manganese and
- (2) The public water system has one split sample analyzed monthly by an in-house test kit and by a certified laboratory.

- (3) The deviation between results shall be no greater than 0.2 milligrams per liter for iron and 0.04 milligrams for manganese. If the split sample results for iron and manganese vary by more than 0.2 and 0.04 milligrams per liter, respectively, then the public water system shall resume weekly monitoring using a certified laboratory.

The Monthly Operating Report (MOR) must be signed by the operator of record designated in accordance with rule 3745-7-02 of the Administrative Code and submitted to the district office no later than the tenth of the month following the month for which the report was prepared.
