Premise #0302000214
Stack Testing for PTI No. 03-16318
Warning Letter Close-out

March 6, 2007

Mr. Mike Merillat, Corporate Engineering & Maintenance Manager
Rudolph Foods Company, Inc.
P.O. Box 509
Lima, Ohio 45802-0509

Dear Mr. Merillat:

The Division of Air Pollution Control/Northwest District Office (DAPC/NWDO) has reviewed the letter submitted on January 11, 2007, by Rudolph Foods Company, Inc., which was in response to the warning letter issued by DAPC/NWDO on December 12, 2006. The company has provided adequate documentation for the installation schedule of the six mist eliminators for the raw pork dryers - emissions units P020, P021, P022, P027, P028 and P029.

DAPC/NWDO concurs that the installation of these mist eliminators, and subsequent stack testing occurred in a reasonable time frame, due to the customized fabrication that was necessary. Thus, we are closing out the warning letter issued on December 12, 2006, and no further action is being taken at this time.

If you have any questions, feel free to contact me at (419) 373-3128.

Sincerely,

Jeffrey A. Skebba
Environmental Specialist
Division of Air Pollution Control
