This emissions test indicates this emissions unit was being operated in violation of its allowable emissions rate for VOC. This is a violation of Permit to Install (PTI) #03-05740, term and condition A.I.1. of the Title V permit, and Ohio Revised Code (ORC) 3704.05.

Per our recent communications with the company, Sauder is aware of the problem and actively working on identifying the cause of the excess VOC emissions. The company must submit a compliance plan and schedule which details the mechanism(s) and the time frame necessary to bring this emissions unit into compliance. At a minimum, this plan should include proposed milestone dates by which the compliance problem(s) are identified and resolved, and when a retest on this emissions unit will occur. Please submit this compliance plan within 45 days of the date of this letter.

The submission of information to respond to this letter does not constitute waiver of Ohio EPA's authority to seek civil penalties pursuant to ORC section 3704.06. The Ohio EPA will make a decision on whether to pursue or decline to pursue such penalties regarding this matter at a later date. Should you have any questions or comments concerning this letter, please feel free to contact Robert at (419) 373-3139 or Mark at (419) 373 -3131.
