Mr. Bob Stambaugh
Daniels Metals
501 West 2nd Street
Waverly, Ohio 45690

Dear Mr. Heistad:

On May 31, 2012, Vicky German and I inspected Daniels Metals in Waverly, Ohio to determine Daniels Metals' compliance with Ohio's hazardous waste laws as found in Chapter 3734. of the Ohio Revised Code (ORC) and Chapter 3745. of the Ohio Administrative Code (OAC). During the inspection I also helped you identify ways to prevent pollution by reducing waste. This letter will explain the violation I found and what you need to do to correct the violation.

I found the following violation of Ohio's hazardous waste laws. In order to correct this violation you must do the following and send me the required information ***within 21 days*** of your receipt of this letter:

1. **Used oil storage requirements for generators, OAC rule 3745-279-22(D)**: Upon detection of a release of used oil to the environment a generator shall clean up and manage properly the release of used oil and other materials.

During the site visit, used oil contaminated soil was observed around the engine storage hoppers. As required by this rule, the used oil contaminated soil must be cleaned up. To demonstrate compliance with this rule, photographic documentation must be submitted to Ohio EPA demonstrating that the contaminated soil has been cleaned up properly.

Within twenty-one (21) days of receipt of this letter, Daniels Metals is requested to provide documentation to this office verifying abatement of the aforementioned violations. Failure to redress listed violations and respond within this timeframe may result in escalated enforcement against Daniels Metals for violation of Chapter 3734. (or 3714.) of the Ohio Revised Code, which carries a civil penalty of up to \$10,000 per day for each violation. Documentation of steps taken to return to compliance includes written correspondence, updated policies, and photographs, as appropriate, and may be submitted electronically to me at melody.stewart@epa.ohio.gov . If Daniels Metals is unable to return to compliance within the twenty-one (21) day timeframe, please contact me at 740 380-5256.

Nothing in this letter shall be construed to authorize any waiver from the requirements of any applicable state or federal laws or regulations. This letter shall not be interpreted to release the owner or operator, or others, from responsibility under Chapters 3704, 3714, 3734, or 6111 of the Ohio Revised Code or under the Federal Clean Water Act, Resource Conservation and Recovery Act, or Comprehensive Environmental Response, Compensation, and Liability Act for remedying conditions resulting from any release of contaminants to the environment.

I have attached the scrap tire and used oil generator fact sheets for your information. If you have any questions regarding this letter, please call me at 740.380.5256.

Sincerely,

Melody Stewart

Waste Codes for Federally Regulated Hazardous Wastes. Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page or list them in the comments if more space is needed. If the waste codes are the same as listed in the most recent RCRAInfo source record, you do not need to list them. Instead just indicate the date of the most recent source record.
