**RE: BELMONT COUNTY
GENERAL COUNTY FILE
(DEVENDRA'S AUTO CARE)
DMWM/SEDO
OHC 100 000 288**

Mr. Gary DeVendra
DeVendra's Auto Care
601 34th Street
Bellaire, Ohio 43906

Dear Mr. DeVendra:

On May 23, 2012, Erika Jackson and Melody Stewart inspected DeVendra's Auto Care in Bellaire, Ohio to determine DeVendra's Auto Care's compliance with Ohio's solid and hazardous waste laws as found in Chapter 3734. of the Ohio Revised Code (ORC) and Chapter 3745. of the Ohio Administrative Code (OAC). During the inspection we also helped you identify ways to prevent pollution by reducing waste and we discussed the large accumulation of tires located in back of your facility. You indicated the scrap tires in back of the facility were set on fire two weeks prior to our visit, and that Liberty Tire would be picking up the tires. After a visit to Neff's Firehouse, it was determined that the fire occurred on April 10, 2012, which was six weeks prior to our inspection not two weeks.

This letter will explain the violations we found and what you need to do to correct the violations. We found the following violations of Ohio's hazardous waste and solid waste laws:

Hazardous Waste Violation:

Used oil storage requirements for generators, OAC rule 3745-279-22(C)(2): Fill pipes used to transfer used oil into underground storage tanks at generator facilities must be labeled or marked clearly with the words "Used Oil."

The fill pipe was not labeled as required above. To demonstrate compliance with this rule, photographic documentation must be submitted to Ohio EPA demonstrating that the fill pipe has been labeled as required.

Solid Waste Violation:

OAC Rule 3745-27-60(B) storage of scrap tires in any amount outside or inside a trailer, vehicle, or building is deemed a nuisance, a hazard to public health and safety, or a fire hazard if sufficient drainage is not maintained such that water does not collect in the area where scrap tires are stored.

OAC Rule 3745-27-79 (B)(3) Whenever there is a fire at a site or facility, the responsible individual shall immediately notify the Ohio EPA emergency response team using their twenty-four hour toll free number [800-282-9378] and take all reasonable measures necessary to ensure that fires do not occur, recur, or spread to other areas of the site or facility. These measures shall include removing or isolating tires and/or portable containers.

Improper storage of scrap tires poses several potential problems for the local residents, environment, and emergency crews in the area. Scrap tires provide an optimal breeding ground for mosquitoes. Mosquitoes identified at tire piles in Ohio can carry St. Louis Encephalitis, La Crosse Encephalitis, Yellow Fever, Dengue Fever and West Nile Virus.

Scrap tire fires are a source of air pollution and can cause respiratory problems for those that breathe the smoke. Tire fires are also difficult for emergency crews to extinguish.

Ohio law requires that anyone removing scrap tires for disposal must take the tires to either a licensed or registered scrap tire collection, or to a recovery or disposal facility. Anyone transporting more than ten (10) scrap tires must be registered with Ohio EPA as a Scrap Tire Transporter. The remaining solid waste must also be removed from the above-mentioned property and disposed of at either a licensed solid waste disposal facility or taken to a legitimate recycling facility. Copies of receipts for disposal or recycling should be submitted to this office for proof of disposal.

Steps to take to return to compliance on solid waste regulations:

- **See OAC Rule 3745-27-79 (C) attached.**
- **Place tires in a secure location.**
- **Copies of receipts indicating proper disposal.**

Within fourteen (14) days of receipt of this letter, DeVendra's Auto Care and Tire Center is requested to provide documentation to this office verifying abatement of the aforementioned violations. You have (90) days or (July 9, 2012) from the day the fire was set (April 10, 2012) to provide this office with proof that the remediation priorities addressed in OAC Rule 3745-27-79 have been addressed. Failure to redress listed violations and respond within this timeframe may result in escalated enforcement against DeVendra's Auto Care for violation of Chapter 3734. (or 3714.) of the Ohio Revised Code, this carries a civil penalty of up to \$10,000 per day for each violation. Documentation of

**USED OIL INSPECTION CHECKLIST
GENERATORS, COLLECTION CENTERS AND AGGREGATION POINTS**

NOTE: 1. A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.

2. Inspectors can check BUSTR's web-site at https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/PublicInquiry.asp to determine if a UST containing used oil is registered with BUSTR. Inspectors may call BUSTR at 614-752-7938 or a BUSTR site coordinator to report an unregistered UST or a UST that appears to not be in compliance with BUSTR regulations. A list of BUSTR coordinators by county are at: https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/SearchByCounty.asp.
