Re: Ottawa County
Graymont Dolime (OH), Inc
Premise #03 62 00 0079
Notice of Violation Close-out/HPF

December 12, 2007

Mr. Brian Mensinger, Env. & Safety Manager
Graymont Dolime (OH), Inc
21880 West State Route 163
Genoa, Ohio 43430

Dear Mr. Mensinger:

The Division of Air Pollution Control (DAPC) has reviewed Graymont Dolime (OH), Inc's (Graymont) response letter received on December 3, 2007, which was in response to DAPC's November 5, 2007, Notice of Violation (NOV). This NOV was for record keeping and reporting violations on emissions unit P901 (hydrated lime storage silo, bucket elevator and load out equipment). The company failed to record the pressure drops across the baghouse associated with this emissions unit and submit deviation reports.

The DAPC has reviewed the company's submittal which included the pressure drop readings across the baghouse serving the hydrated lime storage silo. The readings for the month of November were taken on a once per shift basis. The response also included a commitment to submit quarterly and annual deviation reports for this emissions unit beginning with the submittals due on January 31, 2008. Based on the company's response to the NOV we have determined that Graymont is in compliance with the terms and conditions of PTI # 03-13117. No further action is being taken at this time for the violations cited in the November 5, 2007 NOV and the violations are considered resolved.

Should you have any questions or comments concerning this letter, please feel free to contact me at the above address or call (419) 373-3136.

Sincerely,

Jay P. Liebrecht
Division of Air Pollution Control
