Re: Dura Temp Corporation
Lucas County
Hazardous Waste
Notice of Violation

May 5, 2009

Ms. Diana Martin, Office Administrator
Dura Temp Corporation
949 S. McCord Road
P.O. Box 368
Holland, Ohio 43528

Dear Mrs. Martin:

On April 24, 2009, I conducted a compliance evaluation inspection at Dura Temp Corporation (DTC) located at 949 S. McCord Road in Holland, Ohio. I inspected DTC to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). Pollution prevention options were also discussed during this inspection. This letter will explain the violations we found and what you need to do to correct these violations.

During my visit I spoke with you and Steve Horton, toured your building, observed your operations, and reviewed paperwork. DTC is a supplier of hot glass handling materials and applications for the container and tableware glass market worldwide.

DTC generates spent fluorescent lamps which are managed as universal waste. No painting is done at your facility and no parts washers are in use. Facility vehicles are serviced at Napa or Auto Zone, therefore no used oil is generated. At the time of our inspection, DTC was operating as a non-generator of hazardous waste.

I found the following violations of Ohio's universal waste rules. In order to correct these violations you must do the following and send me the required information within 30 days of your receipt of this letter:

1. OAC Rule 3745-273-13(D)(1): Universal Waste: Fluorescent Lamp Management:

All lamps/bulbs being managed as a universal waste must be stored in packages that are structurally sound and adequate to prevent breakage. The packages/containers must be closed.

DTC did not store the spent fluorescent lamps in containers that were closed.

To abate this violation, DTC must submit to Ohio EPA, NWDO, a photograph documenting that the lamps have been put into proper containers or packages.

2. OAC Rule 3745-273-14(E): Universal Waste: Fluorescent Lamp Labeling:

All packages and containers holding spent fluorescent lamps/bulbs are to be labeled with the words "Universal Waste - Lamps", "Waste Lamps" or "Used Lamps".

DTC did not have the container of spent fluorescent bulbs properly labeled.

To abate this violation, DTC must submit to Ohio EPA, NWDO, a photograph documenting that the lamps or containers in which they are stored have been properly labeled with the words "Universal Waste - Lamps", "Waste Lamps" or "Used Lamps".

3. OAC Rule 3745-273-15(C): Accumulation Time for Universal Waste Batteries and Lamps:

A small quantity handler of universal waste shall be able to demonstrate the length of time that the universal waste has been accumulated from the date it becomes a waste or is received.

DTC was not able to demonstrate the length of time the universal waste bulbs were accumulated. There were no dates on the spent fluorescent bulbs located in the storage area. DTC stated that the last shipment of spent fluorescent bulbs was taken to Heritage Environmental, but no paperwork was available at the time of the inspection.

In order to correct this violation, DTC must place a date on each bulb, or on the container they are placed in, with the earliest date that a bulb is placed in the container. DTC must submit photographic documentation that this has been done. In addition, DTC must submit a copy of the receipt for the last shipment of spent fluorescent bulbs that were taken to Heritage Environmental. DTC must also provide documentation as to where Heritage Environmental is sending the bulbs for recycling.

4. OAC Rule 3745-273-16: Universal Waste Employee Training:

A small quantity handler of universal waste shall ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, relative to their responsibilities during normal facility operations and emergencies.

DTC has not ensured that all employees are thoroughly familiar with proper waste handling and emergency procedures.

In order to correct this violation, DTC must describe, through a training outline, how it will thoroughly familiarize (train) its universal waste fluorescent bulb handlers in proper handling and emergency procedures. DTC must submit some form of documentation demonstrating that this training has been accomplished. The training must also include compliance with all rules for the handling of universal waste bulbs and the corrective actions for all violations of universal waste rules, cited above. Copies of two universal waste guidance documents were given to you at the time of our inspection. Please review this information and contact me if you have any questions.

Ohio EPA will issue an EPA ID number to track our inspection activity. DTC cannot use this number for manifesting hazardous waste shipments. If DTC wants to use an EPA ID number for manifesting and other hazardous waste, used oil or universal waste activities, you must complete and submit a Notification of Regulated Waste Activity form (*EPA Form 9029 (Rev. 11/2002)*) to Ohio EPA. This form is available on our Web page at <http://www.epa.state.oh.us/dhwm/notiform.html> or you can call me at (419) 373-3066 or the Division of Hazardous Waste Management, Central Office, RIS at (614) 644-2977 and we will mail you a copy.

DTC's former location at 1750 Eber Road in Holland, Ohio, has an EPA ID number (OHD005041843) that is no longer in use. According to DTC, you ceased operating at the Eber Road location approximately five years ago and there is currently no other business in operation at this location. Ohio EPA will deactivate the Ohio EPA ID number associated with the Eber Road address.

Enclosed you will find a copy of the checklist that was completed during the inspection.

Ohio EPA has helpful information about compliance assistance and pollution prevention at the following web address: <http://www.epa.state.oh.us/ocapp/ocapp.html>. In addition, you can find copies of the rules and other information on the division's web page at <http://www.epa.state.oh.us/dhwm>.

If you have any questions or I can be of assistance, please contact me at (419) 373-3066.

Sincerely,

Melissa L. Boyers
